

Inukshuk Activity Sheet

You will need:

- 10-15 rocks
- Craft glue
- One sheet of cardboard
- Markers or pencil crayons

Instructions:

1. Take your **rocks** and **place them onto the cardboard**. Use the demo images and shift the rocks around until you find the inukshuk shape you like the best.
2. Once you have found your shape, pick up the rocks one by one and **glue them to the cardboard**. Wait 5-25 minutes for the glue to dry. NOTE: You will need more glue for bigger rocks.
3. **Option:** use your markers or pencil crayons to draw an arctic landscape on the cardboard.
