

Snowflake Craft

You will need:

- 15 popsicle sticks
- Craft glue
- Bells (hearing)
- Glitter (eyesight)
- Pompoms (touch)
- String
- Markers or pencil crayons

Instructions:

1. **Place a dot of glue on the middle of a popsicle stick.** Stack another popsicle stick on top of the glue, making an "X" shape. Do this twice and glue those two "X" shapes together like the snowflakes in the image to the right.

2. **Decorate your snowflake** using one of the three senses (hearing, seeing, touching). Is your snowflake going to be shiny, musical, or soft?
3. **Make two more snowflakes**, each inspired by one of the three senses listed.
4. **Make a loop with a short length of string.** Glue it to the tip of a snowflake. Decorate the snowflake as much as you'd like!
