

NLLS Reading Program

Family Take & Make Kits

Nature Sculpture

Here's what you need to make one (items in red are not in your kit)

- Soft Modeling Clay
- Artificial nature objects (optional)
- **Nature objects**
- Paint (green, red & yellow)

Instructions:

Gather natural materials (optional)

Knead the clay to soften it and then roll into small balls that are golf ball size.

Place your desired object into the clay and then gently pull the object off the clay.

Place the imprinted clay on a baking sheet and back for approximately 20 minutes at 275 degrees.

Once the project cools feel free to paint it.
